

Important information on new channels

Dear Customer,

We are proud to announce the launch of two exciting Primary channels on the 1st of January 2001 – Nickelodeon and the Paramount Comedy Channel – giving you even greater choice and entertainment.

To receive these great channels, you must perform an 'add channels' update using your set top box and remote control, which must be done before you can receive these channels. For full details on this simple procedure, follow the instructions on page 179 of this month's TV guide.

With Nickelodeon, both young and old can enjoy a colourful mix of both live action shows like Sabrina the Teenage Witch, and wacky cartoons like Rugrats and Hey Arnold!

The Paramount Comedy Channel is full of laughs. You'll find classic comedy like Frasier, along side the likes of Spin City with Michael J Fox. For full programming details on both new channels, refer to this month's TV Guide.

Once you've completed the 'add channels' procedure you'll automatically receive these two great channels if you currently subscribe to all our available Primary channels.

If you don't have all our available Primary channels, why not call to upgrade your package and activate these channels? Simply phone us today on **0870 600 9696**.

These great new additions to our channel line-up are just a part of our commitment to giving you the best range of viewing entertainment.

Yours sincerely,

Mr Nick Bowman
Director of Customer Services
